\$50.00 OFF HCG DIET

HCG Diet: Now Available

Now available at Allen Aesthetics & Laser Center, a diet that will help you to lose weight in those unsightly places you just can't seem to lose. On top of losing weight, the HCG diet will help to reset your metabolism, helping in maintaining a healthy weight and lifestyle.

What is HCG and how does it work?

HCG is a hormone naturally produced in the body. It has many functions and is used medically to treat a variety of conditions. It is the pregnancy hormone. This hormone allows the body to metabolize fat and use it as energy for both mother and fetus. This acts as a "fail-safe" mechanism when energy is needed immediately. For weight loss, we use only a very small amount of HCG to capitalize on this same mechanism. Using HCG in this way does not mimic pregnancy; in fact, it can be safely used by both men and women.

The HCG diet is based off the studies of Dr. Simeon and include HCG and B12 supplements along with a low calorie diet. There are no frozen meals to purchase. There are no adverse effects. The diet is all natural and based off the body's own chemistry and physiology. It is also very effective. People who follow the diet can lose a pound a day on average, even up to 3 lbs a day!

SELECT LA-ROCHE POSAY PRODUCTS 25% OFF
